

SQUARE TECH TRAINING VIRTUAL REALITY PAID INTERNSHIP FOR HIGH SCHOOL STUDENTS

Square Tech Is a Training Program with a paid internship that recruits High School youth in 11th & 12th grades between ages of 16 – 19. This tech-based youth training program engineers a foundation of learning and developing skills through a series of technology-based training workshops. Our young training interns are learning skills to become successful in the technology field while building lasting friendships with their peers and adults.

College Level Course at Benjamin Franklin Institute

Through our Square Tech Training Program, you can take an Introduction to Virtual Reality at BFIT, earn a stipend, and upon completion can receive three college credits. This is an in-person class only and will take place at Benjamin Franklin Institute of Technology.

This course will provide students with an overview of the basic principles of virtual reality (VR) and virtual environment technology (VET). This course will cover the history of VR, the relationship between VR and other mixed reality technologies, design considerations, communications, hands-on projects as well as social and ethical implications of immersive (3D) technologies. Students in the course will be given an opportunity to interact directly with immersive virtual environment technology in the lab and will gain firsthand experience by developing a VR based project/application as a final project.

A learner with no previous experience in Virtual Reality will be able to evaluate existing VR applications, and design, test, and implement their own VR experiences using Unity by the end of the course. Upon completion students can get 3 college credits.

This is an in-person class, it is a 15-weeks, paid training internship for 11th & 12th graders starting January 2023 more information to follow.

Schedule: Mondays and Wednesday 5-7pm. **Deadline to apply is 1/9/2023**

Interested students can apply only at www.cstoboston.org/square-tech
